Re: ET Docket No. 92-298 AM Stereo Standard

Dear Ms. Searcy:

I am the Engineer for Radio Station WEUP-1600 AM with a six (6) tower nighttime array. In my opinion, to mandate a stereo system other than Kahn would cause our station undue expense and time in re-engineering for another stereo system. As most Kahn systems will work on any array without re-engineering cost.

Please be considerate of the AM station operations that have a commitment to stereo and have chosen a system based on what would work because of unique night-time arrays that Kahn addressed years ago in it's initial introduction of AM stereo to all broadcasters.

Respectfully yours,

John Hain  
Chief Engineer
